

Poultry Litter Stabilizer

ALL-NATURAL

MICRO-D is cost effective and completely harmless if birds come in contact with the product. The microbes attract and bond dust through a natural static charge.

HEALTHIER BIRDS

Use of MICRO-D provides better air quality, reduced chance of burned feet and chests from high pH levels, and increased nutrient availability in the poultry manure.

EASY APPLICATION

Apply product to water as directed and spray using an agricultural pump sprayer. Repeat every flock and apply in all areas birds are expected to excrement.

MICRO-D is an all-natural microbial additive that helps to rebuild essential organic compounds in redundant use litter and aids in alleviating the bioburden. It reduces ammonia and other VOCs generated by decaying poultry litter.

Rebuilds Essential Organic Compounds

TOMIGUNN MICRO-D poultry litter stabilizer is an all-natural microbial additive that reduces ammonia and other VOCs generated by decaying poultry litter.

TOMIGUNN MICRO-D helps to rebuild essential organic compounds in redundant use litter and aids in alleviating the bioburden.

Easy and Safe Application

You may use a pump sprayer or an electrostatic sprayer to apply the product.

Simply add the powder to the water as directed in the technical data sheet. Spray evenly in all places throughout the house where birds are expected to excrement.

“ **MICRO-D improves poultry house air quality and helps birds resist disease.** ”

Diverse Complex of Microbes

MICRO-D is a diverse complex of microbes and natural extracts that reduce the harmful effects of ammonia volatilization by sequestering nitrogen.

The use of MICRO-D provides better air quality, reduced chance of burned feet and chests from high pH levels, and increased nutrient availability in poultry manure. It helps birds to resist disease.

The microbes attract and bond dust through a static charge similar to that of the attraction of lint on clothing.

NOP Compliant

MICRO-D is compliant with the national organic program of the USDA.

Application is easy and convenient. MICRO-D is made from all-natural ingredients.
