LEMONAIDE all-natural poultry probiotic is Animal Protein-Free and GMO-Free, aligning with our commitment to providing natural and non-modified solutions. Additionally, our product is Antibiotic-Free and Pesticide-Free, contributing to the overall health and well-being of poultry.

COMMERCIAL USE:

Week 1: Mix 1 oz of LEMONAIDE to 10 gallons water and distribute using a 1:128 medicator pump. Allow the medicator pump to run until empty.

Week 2 to Departure: Mix 1 oz of LEMONAIDE for every 2,000 gallons of water consumed each week and distribute using a 1:128 medicator pump. Allow pump to run until the entire 10 gallons are used. As you increase the dosage, you can increase the number of days given. For example, if you are dosing 6 oz per week, you can give 2 oz for three (3) times a week.

BACKYARD USE:

Mix ¼ teaspoon to 3 gallons of water. Feed birds once or twice a week, as needed.

FOR BEST RESULTS: (STORAGE & HANDLING)

Store between 40 F and 85 F in a dark place protected from direct sunlight or high heat. Do not allow moisture to come in contact with the product that is not being used. If clumping exists, break it into useable chunks. The product is still usable and will mix readily with water. Between uses: Close the zip lock seal on the pouch completely and then squeeze all excess air out through a one-way valve to avoid clumping. Do not inhale. Use only as directed. Keep away from children.

CAUTION: Do not come in contact with any acidifiers, algaecides, antibiotics, disinfectants, fungicides, or peroxides as they may dilute the effectiveness. If chemicals are used during the growth cycle, start over immediately building the beneficial microbes in the birds. Clean water lines between flocks using a cleaning agent.
