**PURPOSE STATEMENT:**

WAR HAMMER is a powdered formulation applied in poultry houses to introduce beneficial microorganisms that foster the formation of protective, beneficial biofilms. These positive biofilms play a crucial role in creating a microbiologically harmonious and balanced environment, mitigating the proliferation of pathogenic bacteria and enhancing overall sanitation levels.

**DIRECTIONS FOR USE:**

Add 1 ounce of WAR HAMMER to 3.5 gallons of water in a fine mist sprayer fogger. Apply to all surfaces, walls, dishes, feedlines, curtains, etc. Coverage varies, approximately 7,000 to 10,000 square feet per 1 ounce of WAR HAMMER. A fine mist sprayer fogger is recommended for best results. Reapply WAR HAMMER after every flock.

**RESULTS: (STORAGE & HANDLING)**

Store between 40 F and 85 F in a dark place protected from direct sunlight or high heat. Do not allow moisture to come in contact with product that is not being used. If clumping exists, break into useable chunks. The product is still usable and will mix readily with water.

Between uses: close the zip lock seal on the pouch completely and then squeeze all excess air out through one way valve to avoid clumping.

Do not inhale. Use only as directed.
