Cellulase: 600 CU/g

Hemicellulase: 600 HCU/g

Xylanase: 600 XU/g

TOTAL OTHER INGREDIENTS: 90.3%

PURPOSE  
STATEMENT:

TITAN is a microbial powder consortium containing beneficial Bacillus Bacteria and enzymes that naturally breaks down excess nitrogen and phosphorus compounds in ponds, lakes, and streams to reduce organic buildup and promote clearer, balanced water.

DIRECTIONS FOR USE:

Apply as a powder directly to the water surface or by pre-mixing in a pail of water, then dump or spray into the water body, making sure product contacts various areas of the pond for even distribution.

Recommended Application Rates:

Apply 1 gram for every 1,000 gallons of water that needs to be cleaned. Apply once per month for routine maintenance. If water has excessive murkiness, pond scum, or algae, then increase application frequency to once every two weeks until issues clear up.

WARRANTY:

This product is guaranteed to be free of defects of manufacture, production, quality assurance, or other faults, for a period of one year after the date of purchase. If the product is found to be defective, then please return it to the supplier where this product was purchased for a replacement. This guarantee is void where prohibited and/or if this product has not been stored in accordance with the instructions listed herein. Nous Holdings Inc will not be liable for any damage, direct or incidental. Due to many factors that affect performance, Nous Holdings Inc cannot guarantee the effectiveness of this product in use. Buyer assumes all responsibility for safety and use not in accordance with label directions.

FOR BEST

RESULTS: (STORAGE & HANDLING)

Store between 40 F and 85 F in a dark place protected from direct sunlight or high heat.

Do not allow moisture to come in contact with product that is not being used.

If clumping exists, break into useable chunks. The product is still usable and will mix readily with water.

Between uses: close the zip lock seal on the pouch completely and then squeeze all excess air out through one way valve to avoid clumping. Do not inhale. Use only as directed.
